

JENIEL B. SABALBORO

SOFTWARE ENGINEER

09919530937 | sabalborojeniel427@gmail.com | Santa Rosa, Laguna

SUMMARY

A motivated Computer Engineering graduate dedicated to building innovative technology solutions for real-world challenges. Experienced in designing databases and constructing robust data systems, combined with a solid foundation in web development and automation. Equipped with a strong capacity to manage data workflows, master new frameworks, and collaborate effectively within a professional team toward technical excellence.

EXPERIENCE

Production Maintenance Intern

Feb 2026 - May 2026

Ryonan Electric Philippine Corporation | Technopark, Biñan, Laguna

- Designed, developed, and implemented an **ACM Real-Time Monitoring System** using ESP32, PHP, MySQL, HTML, CSS, and JavaScript to automate machine cycle counting and provide real-time production monitoring through a web-based dashboard.
- Improved preventive maintenance management by enabling maintenance personnel to track machine usage, monitor maintenance thresholds, and access historical machine data for informed decision-making.
- Enhanced operational visibility and data accuracy by replacing manual monitoring with an automated monitoring system deployed on the production floor of Ryonan Electric Philippines Corporation.

EDUCATION

Bachelor of Science in Computer Engineering

2022 - 2026

Asia Technological School of Science and Arts

- Awards:** With Honors, Academic Distinction Award, Special Award – Alterna Verde Corporation, Best in Project Design (Industrial Application)

PROJECTS

Innobytes – Biogas Monitoring & Control System (Capstone)

2025 – 2026

Academic Research Project | Supported by Alterna Verde Corporation

- Engineered an automated biogas monitoring and control system using sensors, microcontrollers, Airlift, and CSTR reactor systems to evaluate biogas production from Water Hyacinth (*Eichhornia Crassipes*) in Laguna De Bay.
- Participated in DICT Philippine Startup Challenge 10 (PSC X) – CALABARZON region.
- Awards:** Best User Interface, Most Innovative Use of Technology, Future Impact, Audience Choice, and Grand Innovator of the Year.

Laruzzo Resort – Resort Sales Management System

2026

- Built a full-featured Inventory and Sales Management System with POS integration and online booking for a Laruzzo Resort.

TECHNICAL SKILLS

- Programming & Web Development:** PHP, JavaScript, HTML, CSS, MySQL, Bootstrap, Linux
- Embedded Systems & IoT:** ESP32, Raspberry Pi, Arduino, Sensor Integration, Embedded Programming
- Tools:** AutoCAD, Cisco Networking, Git, Github, VScode, Arduino IDE
- AI Tools:** ChatGPT (OpenAI), Claude (Anthropic), Gemini (Google), GitHub Copilot, Blackbox AI
- Core Competencies:** Troubleshooting, Database Management, Preventive Maintenance, Problem-Solving, Teamwork

CERTIFICATES

Certified Lean Six Sigma Yellow and White Belt

March 23, 2026

Issued by: Prof. Dr. Marcelo Machado Fernandes

SEMINARS AND WEBINARS ATTENDED

- | | |
|---|----------|
| • Internet of Things (IoT) Conference 2025 SMX Convention Center | Sep 2025 |
| • Data to Decisions: Real-World Applications of AI and Machine Learning Pink Villa Resort, Roseville | Sep 2025 |
| • IGNITE HACKathon 2025 (Local Youth Actions for SDG's and Beyond) Sta. Rosa City, Auditorium | Aug 2025 |
| • Hands-on Teaching and Testing Machine Learning to Identify Objects with Data Analysis | Aug 2025 |
| • Cybersecurity for Micro, Small and Medium Enterprises (MSMEs) | Jun 2025 |
